A FISH'S LIFE

5 WAYS YOU CAN HELP FISH

NO
THANKS

1. If someone asks you to go fishing, say “no thanks.” Explain how fish feel pain, and deserve the same respect and protection we give to cats and dogs. Go snorkeling, biking, canoeing, or hiking instead.

2. Don't eat fish and tell others not to either.

Sea Kittens

3. Make your own sea kitten by going to PETAKids.com/SeaKitten.

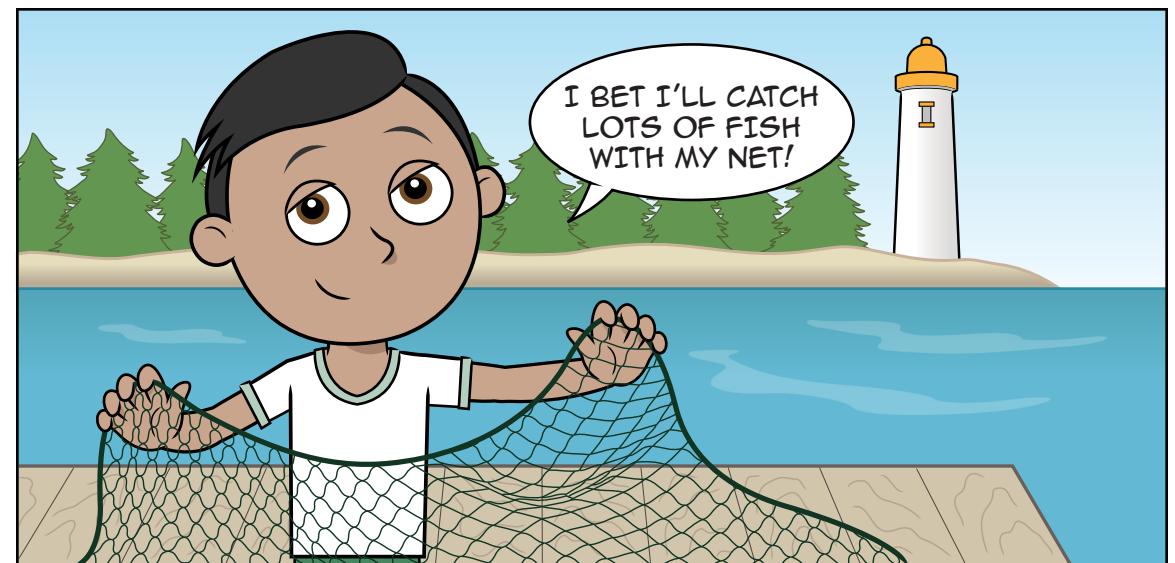

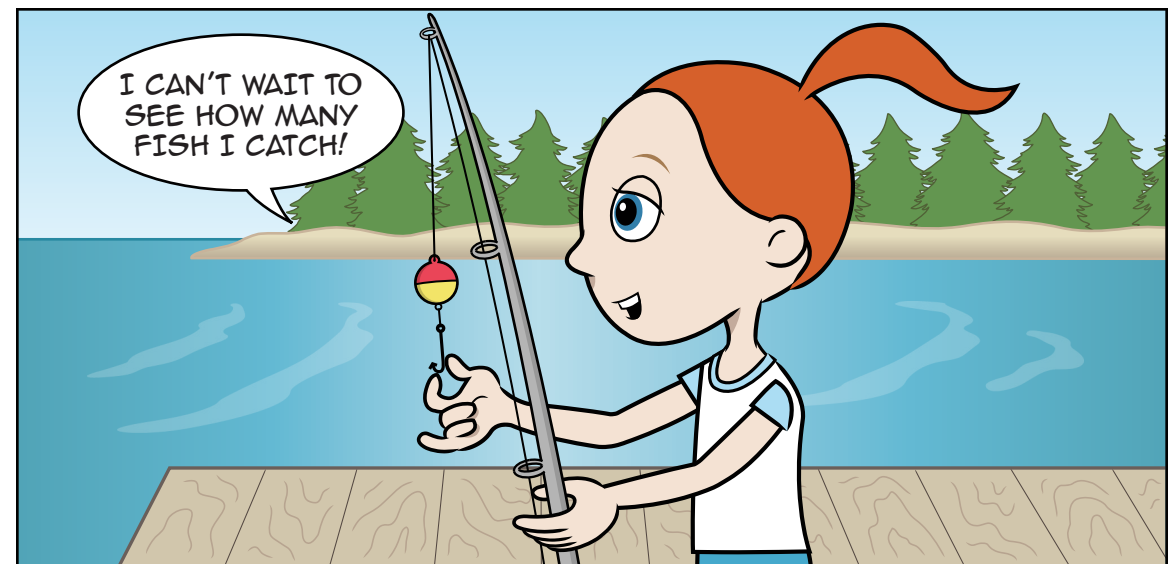

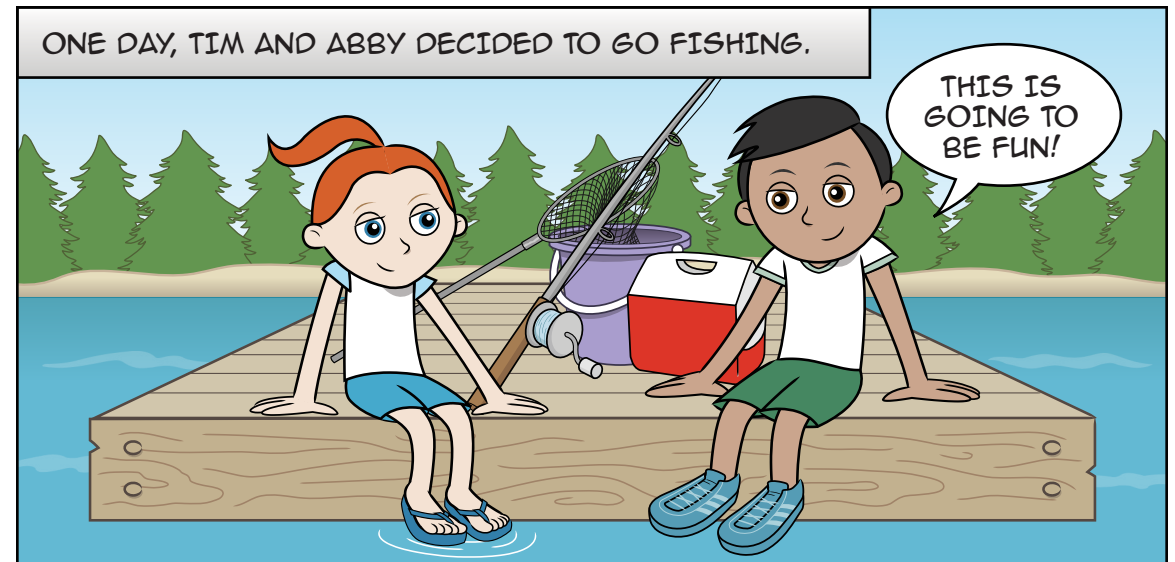

FISHING
HURTS

4. Create a “Fishing Hurts” display for your local library. Include pictures, facts, and information about why people shouldn't fish.

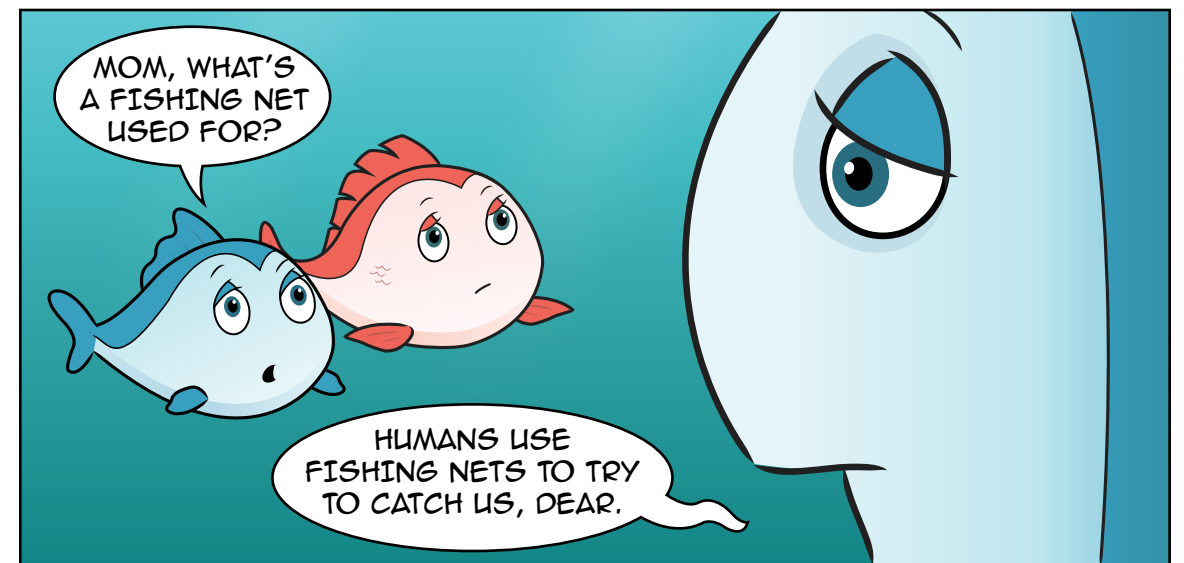

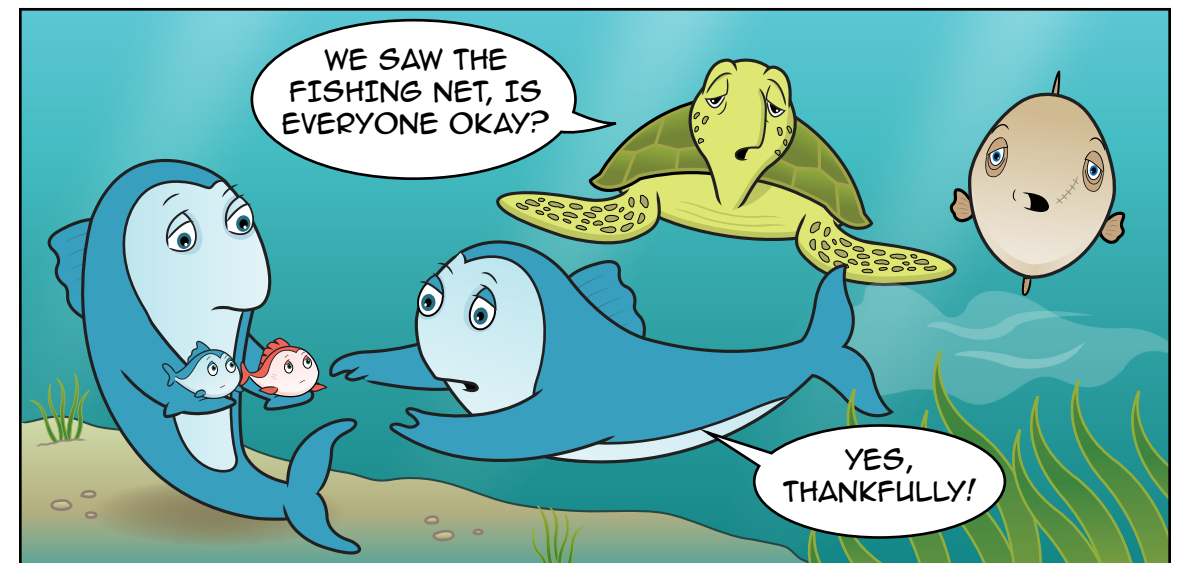

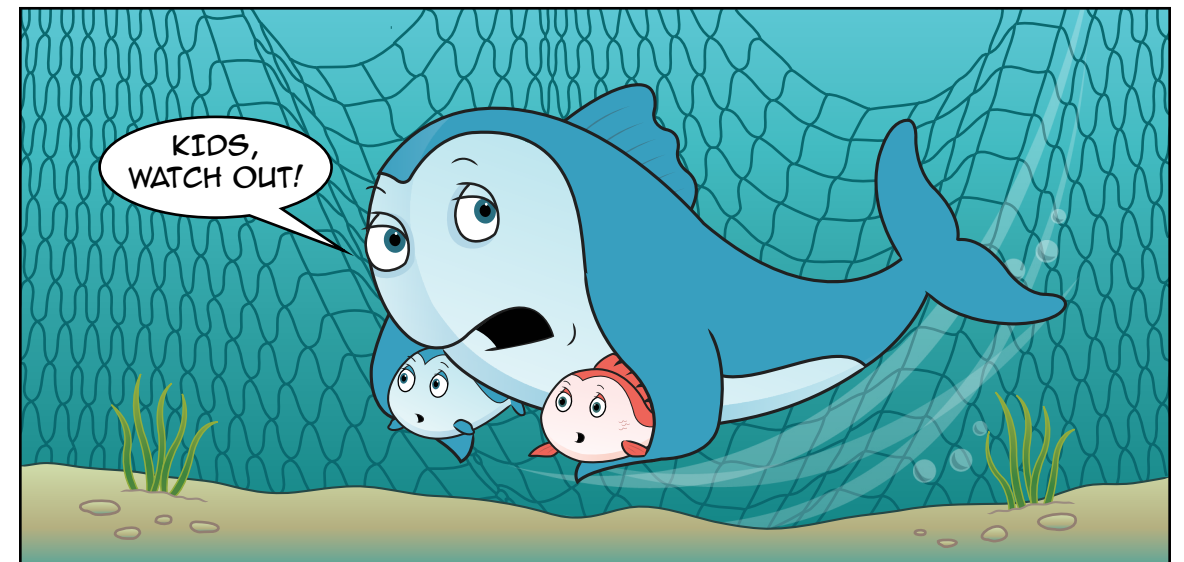

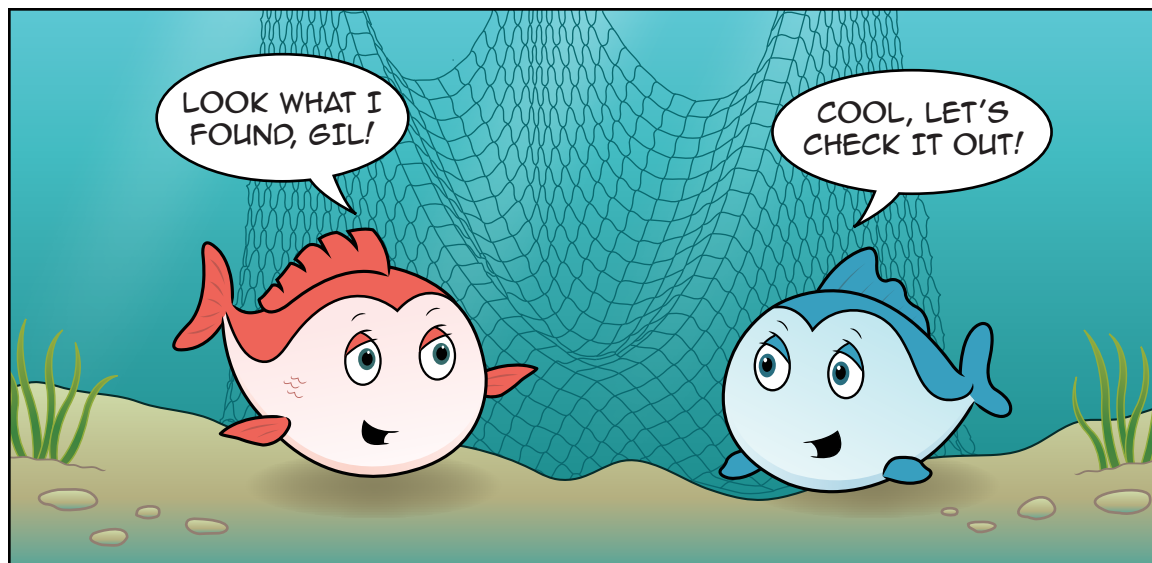

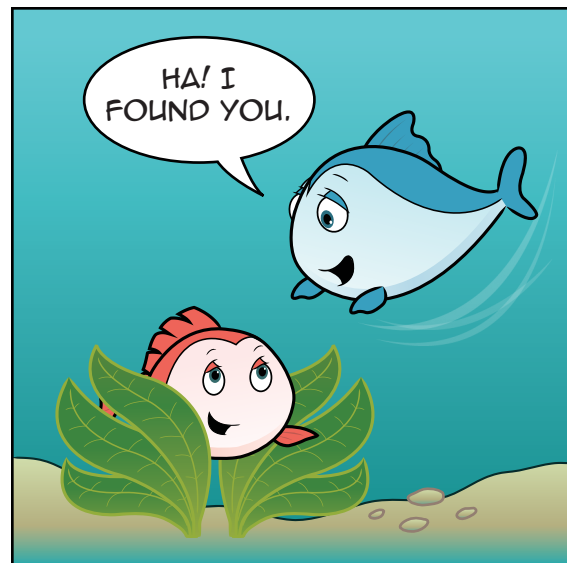

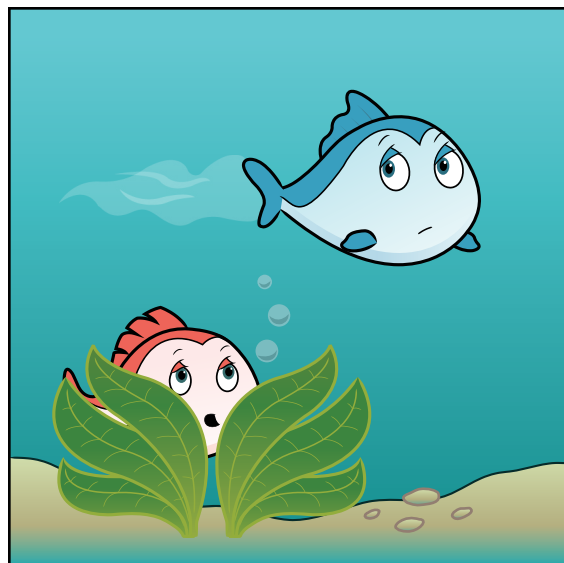

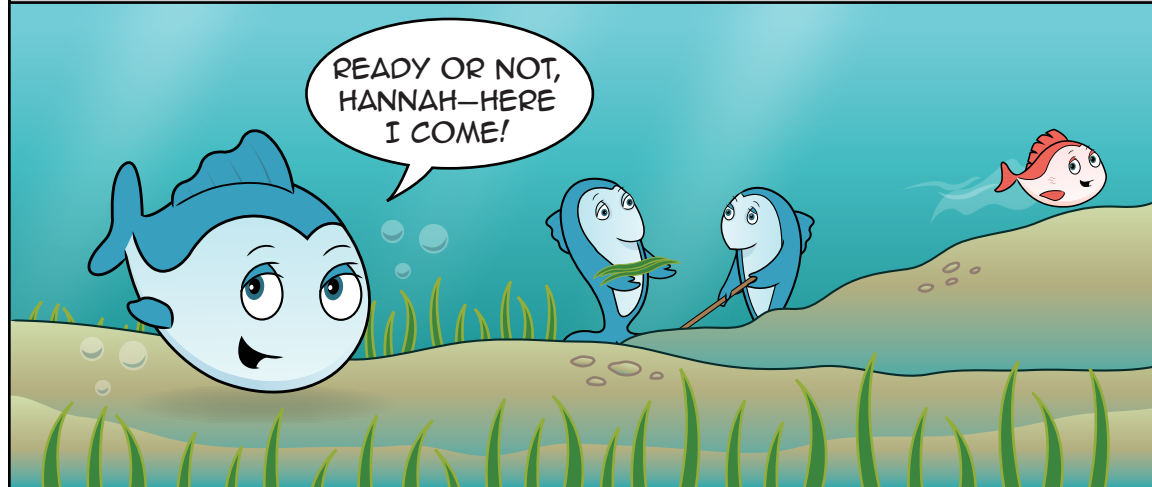

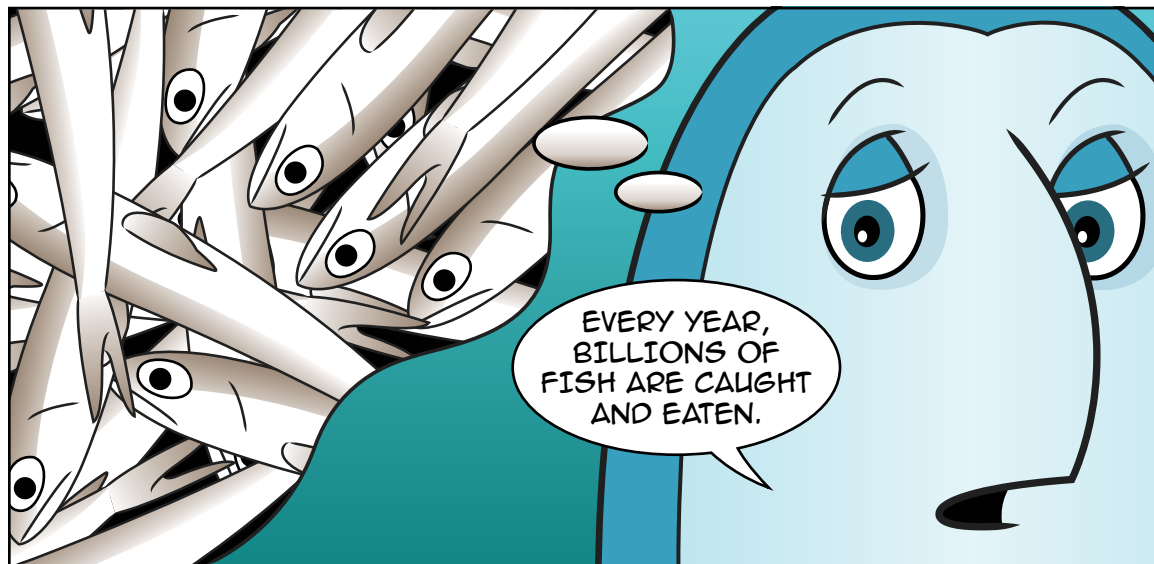

5. Help spread the word by ordering stickers at PETAKids.com/FishStickers.

ONE DAY, TIM AND ABBY DECIDED TO GO FISHING.

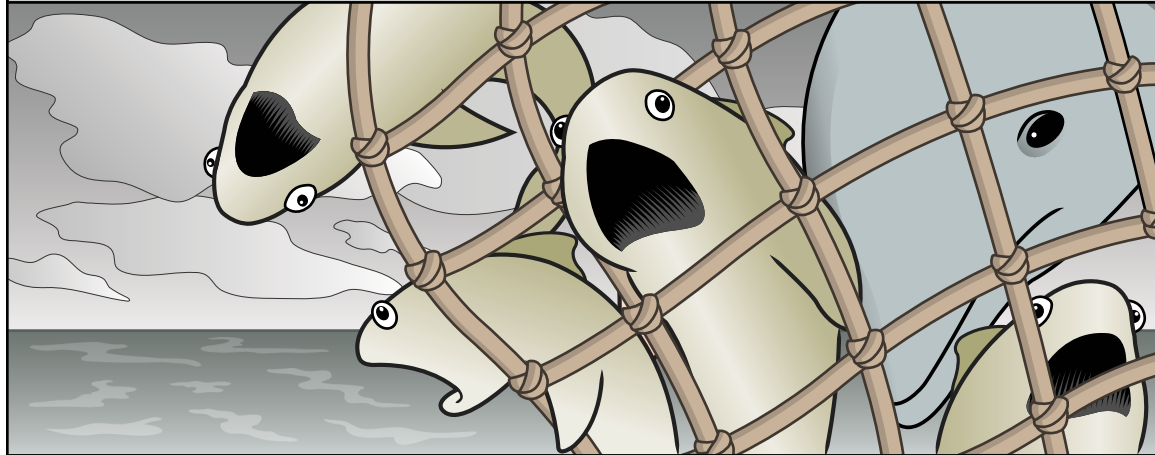

MEANWHILE, DOWN BELOW, HANNAH AND GIL PLAY HIDE AND SEEK.

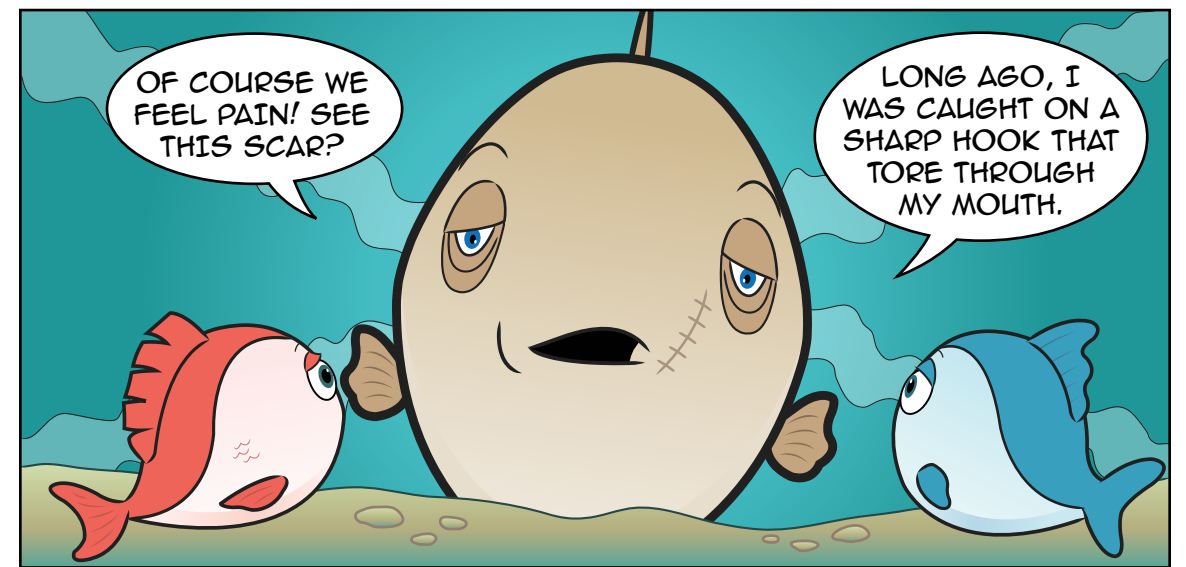

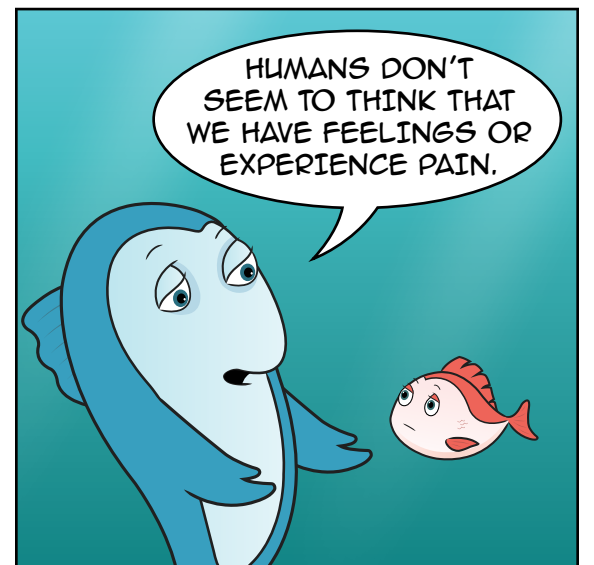

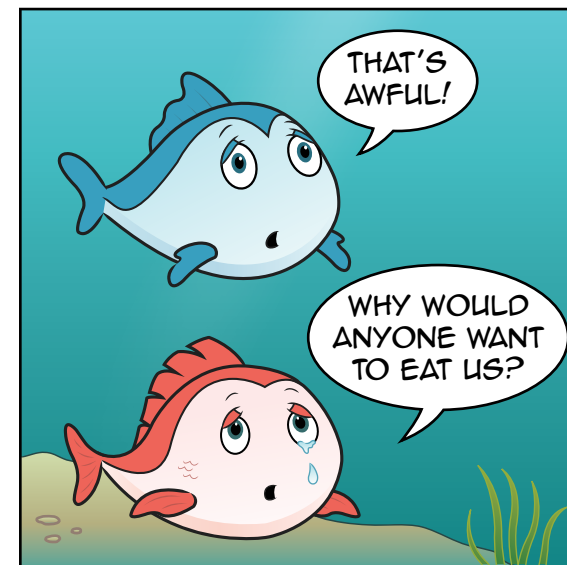

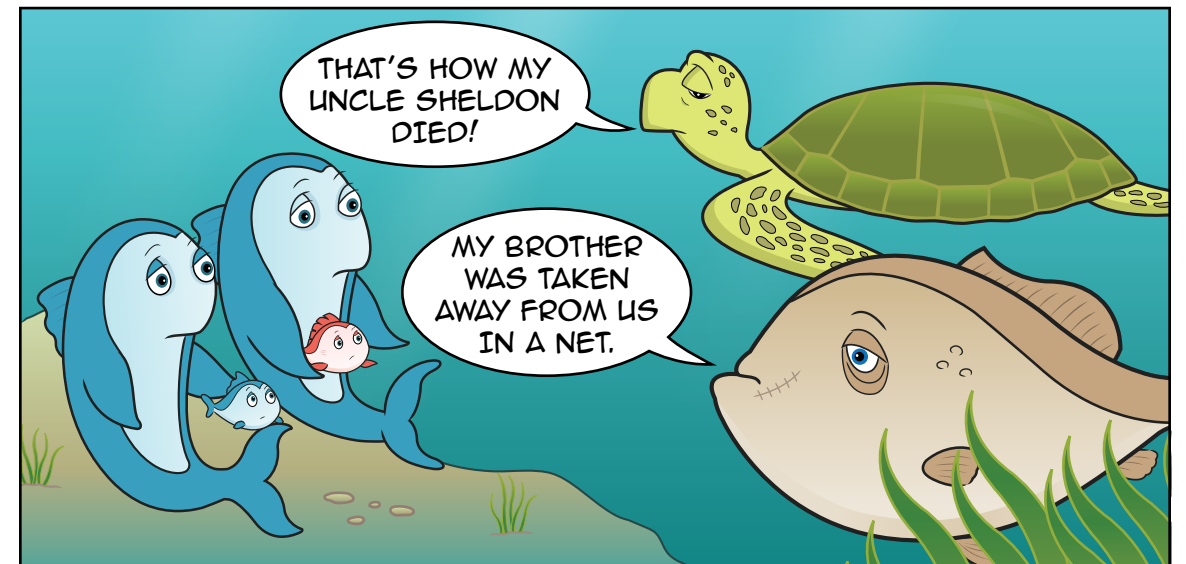

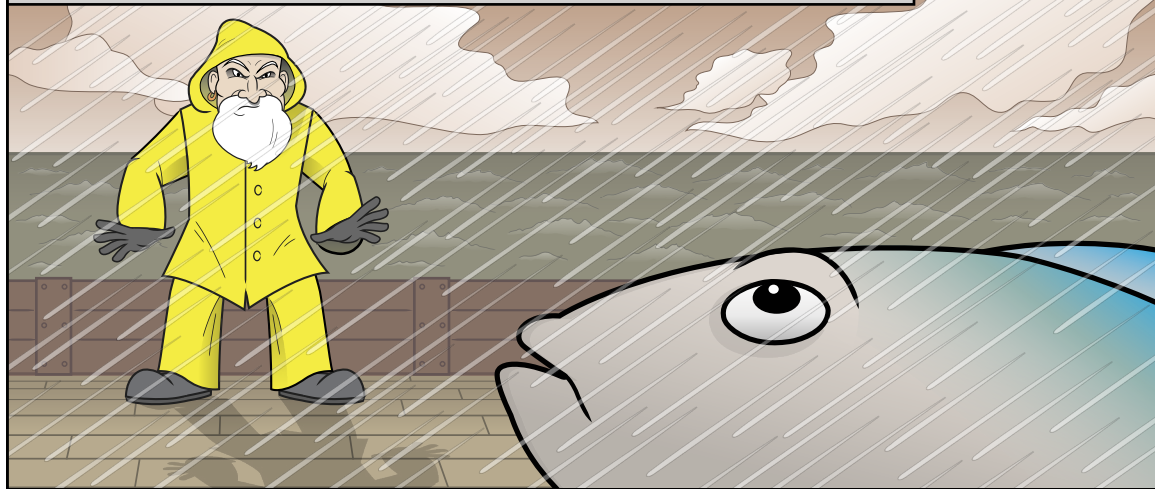

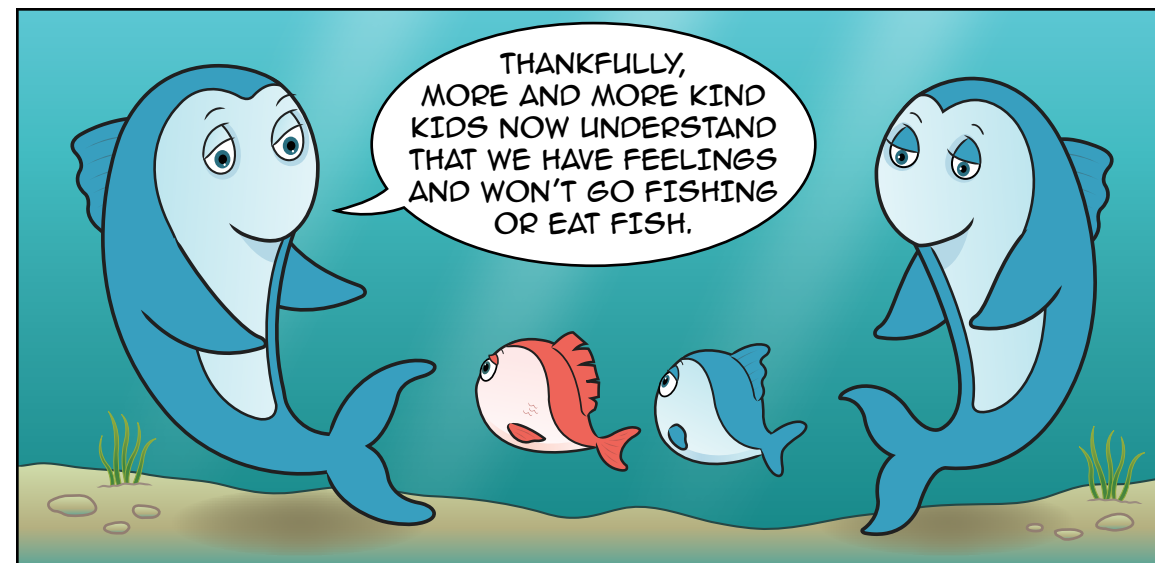

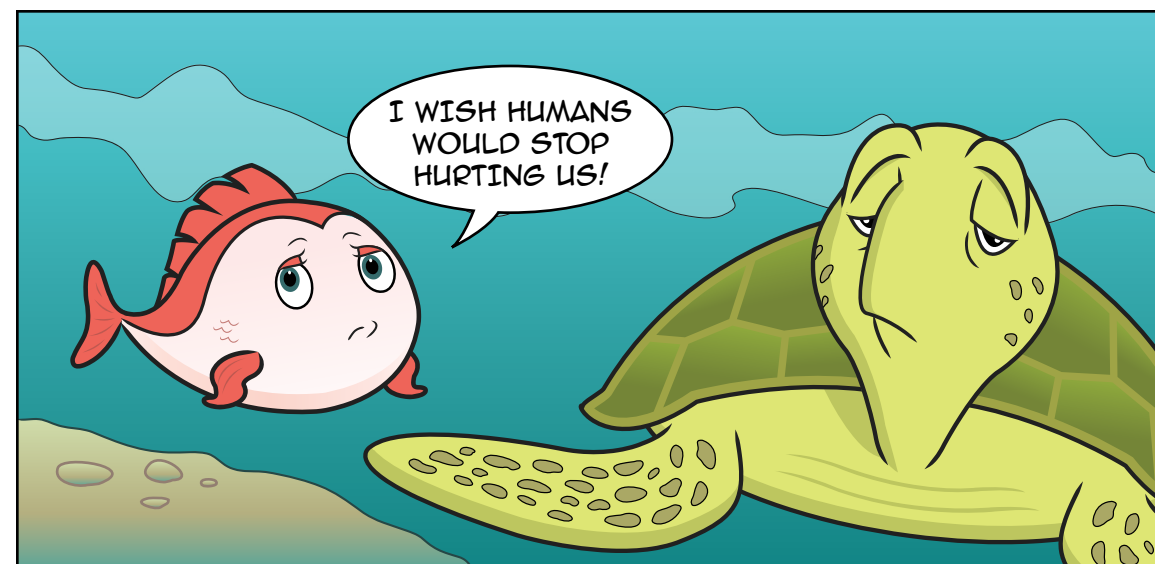

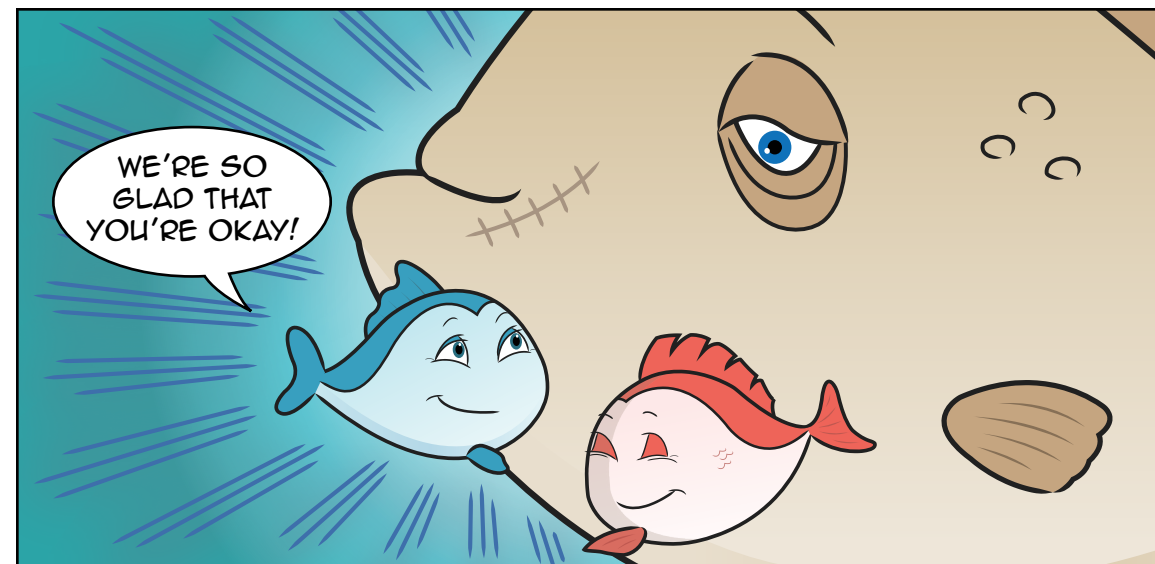

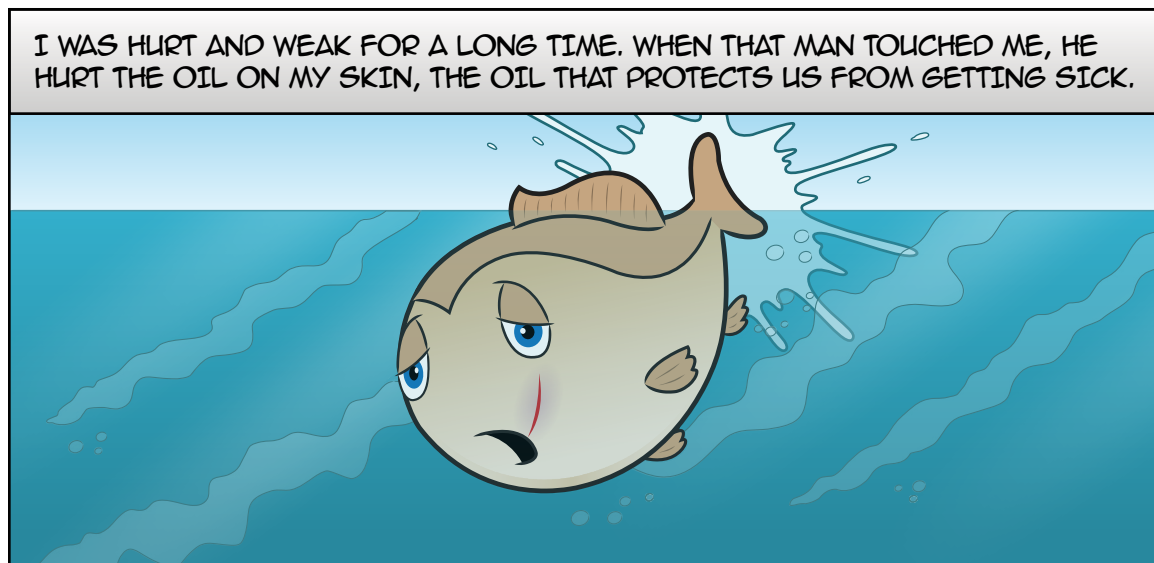

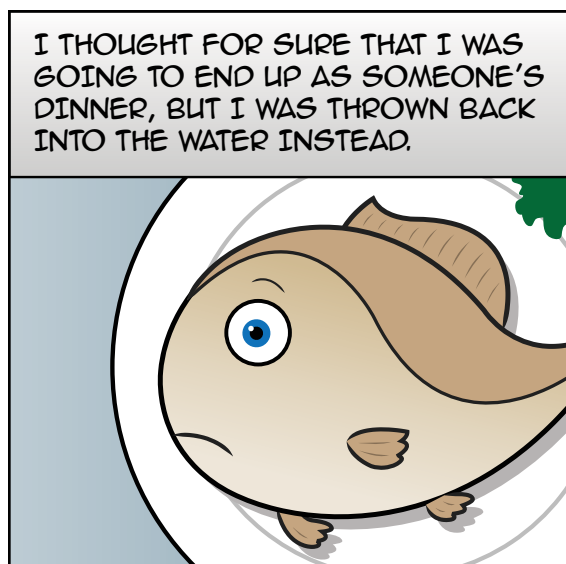

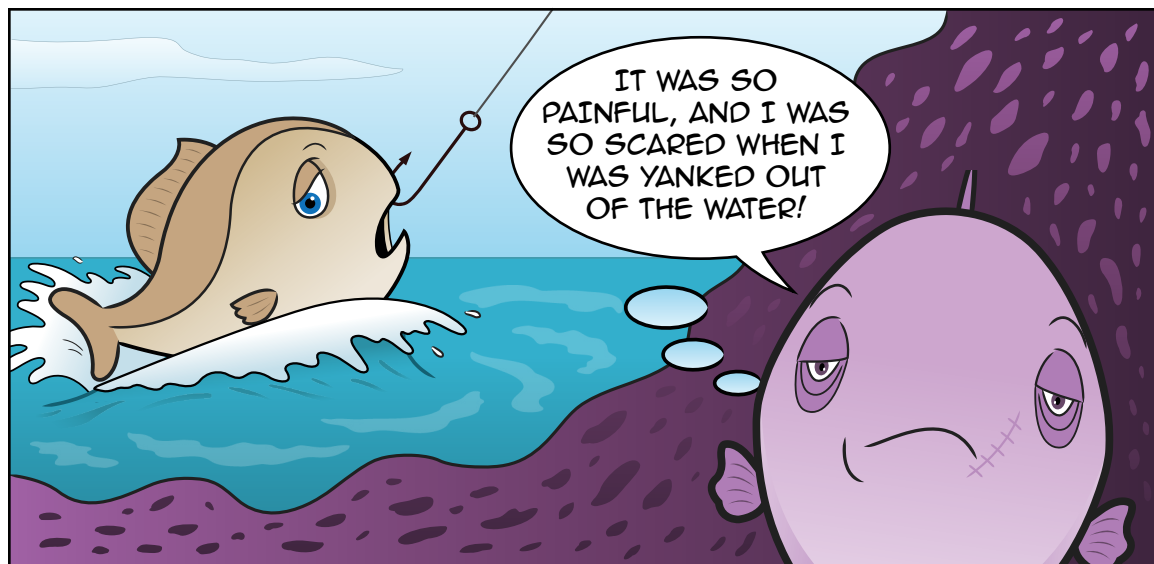

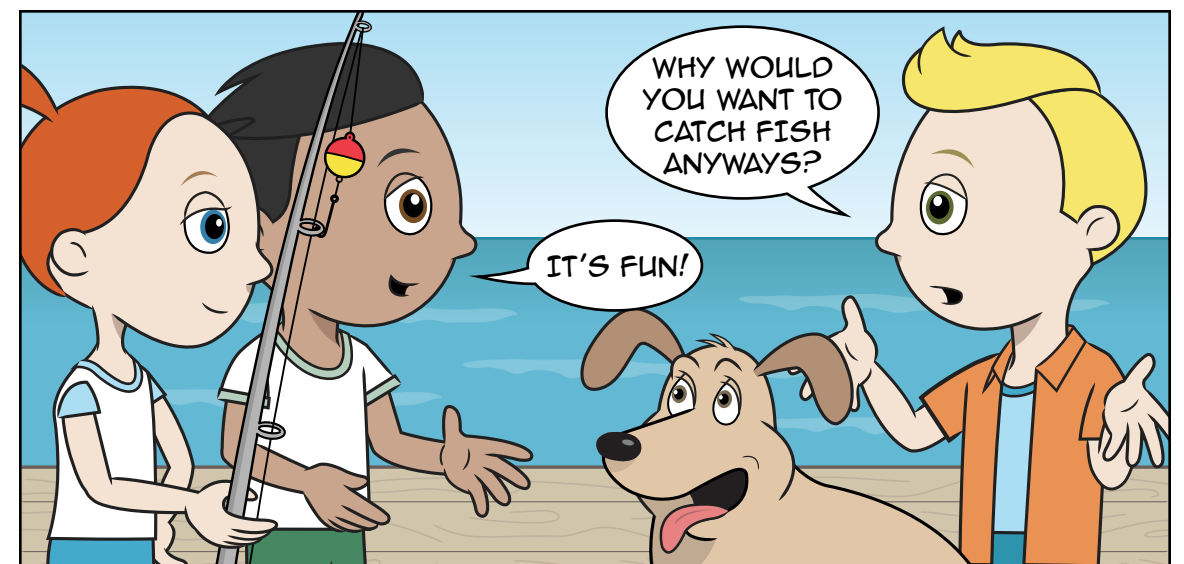

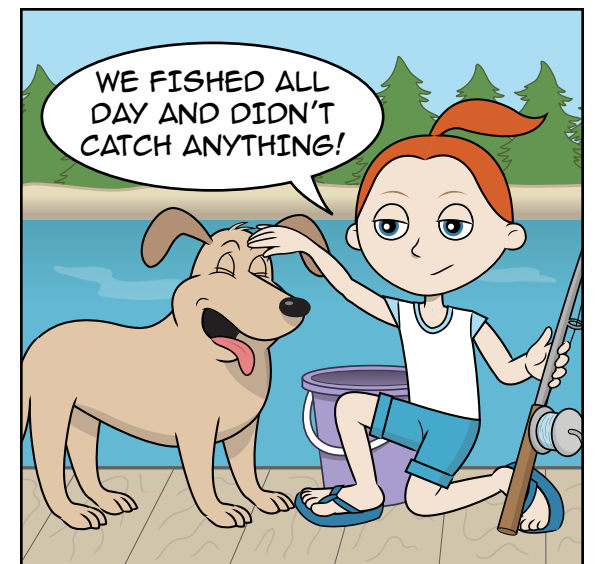

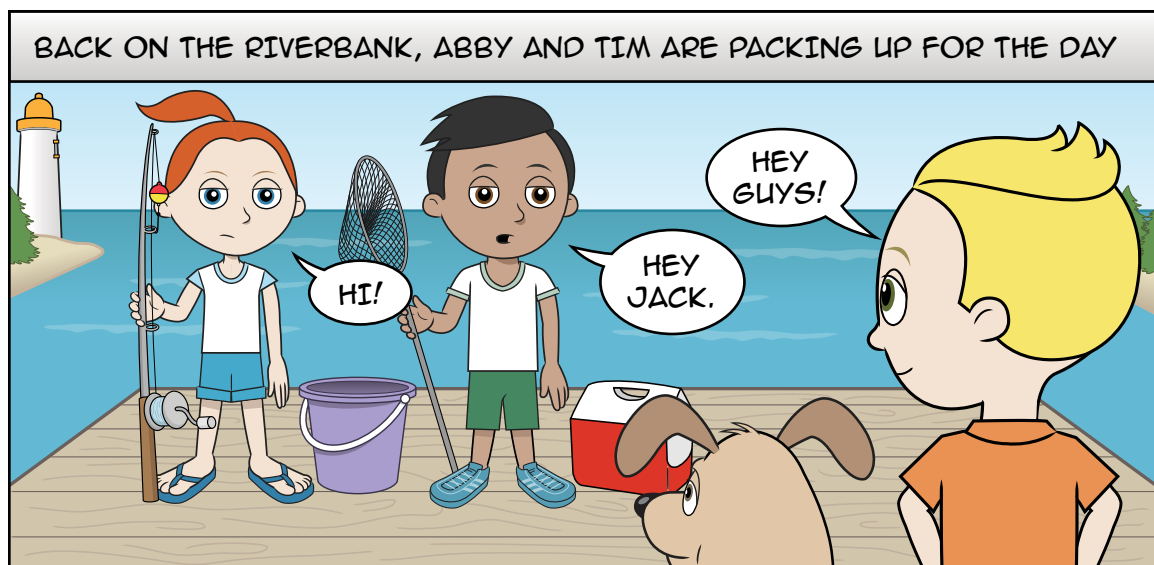

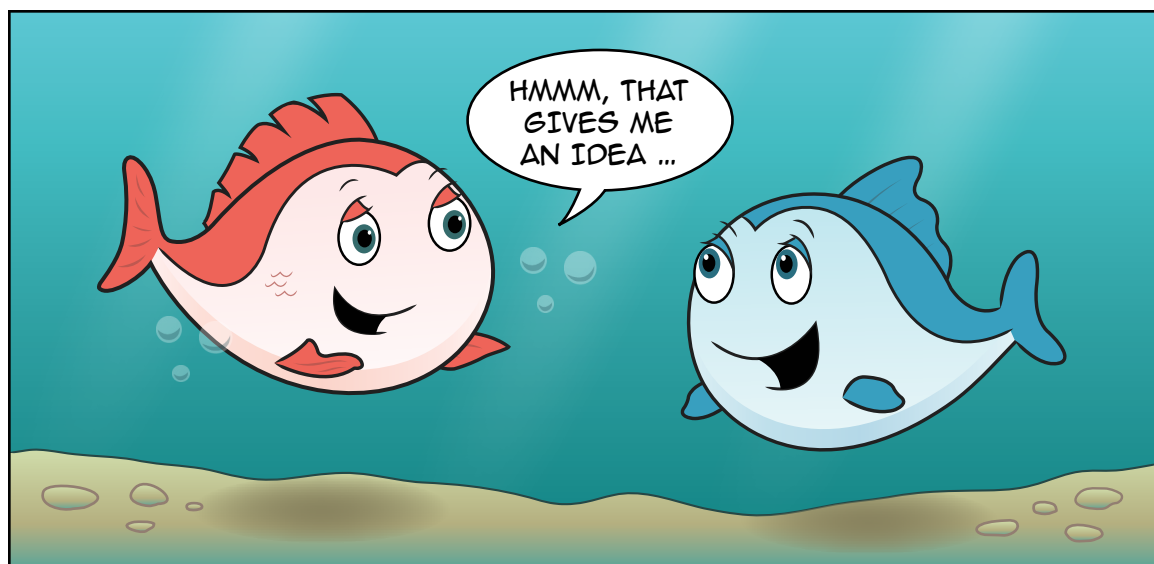

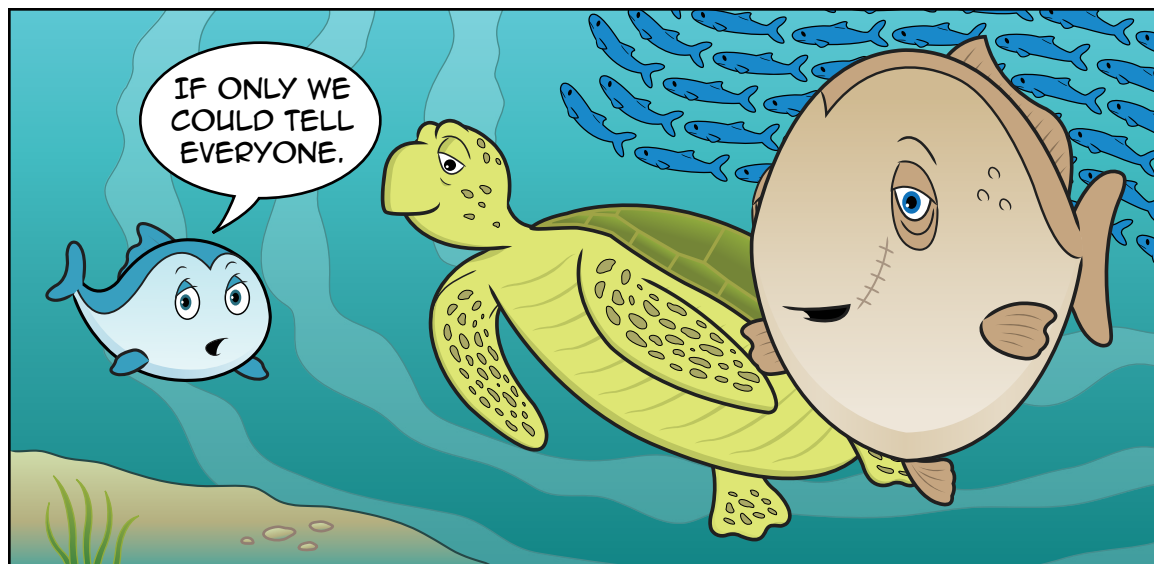

OCEANS ARE BEING EMPTIED BY HUGE NETS THAT YANK FISH AND OTHER TRAPPED ANIMALS OUT OF THE WATER.

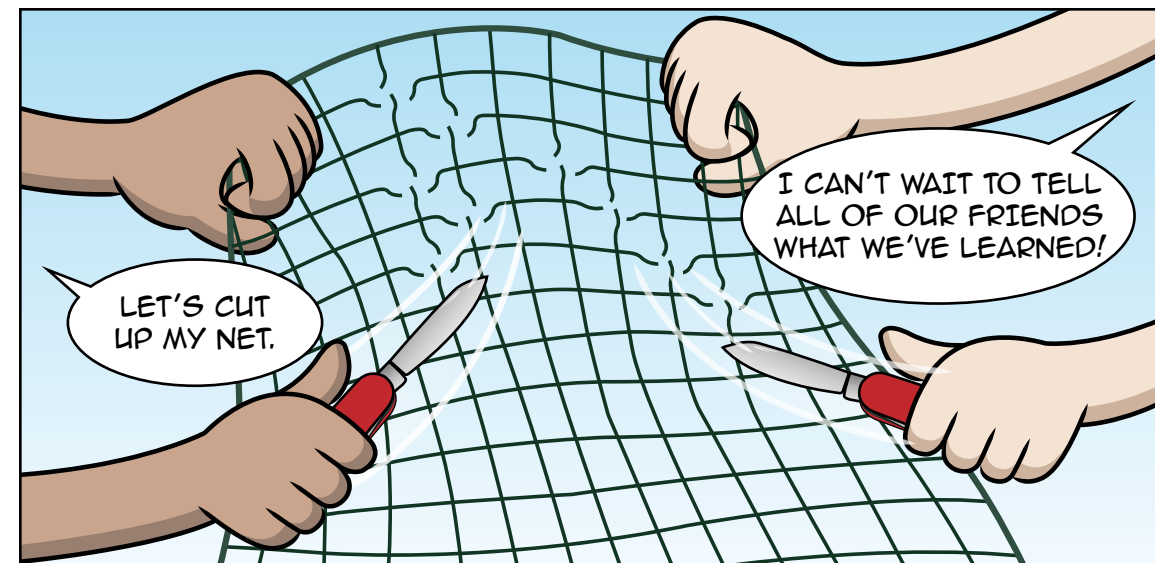

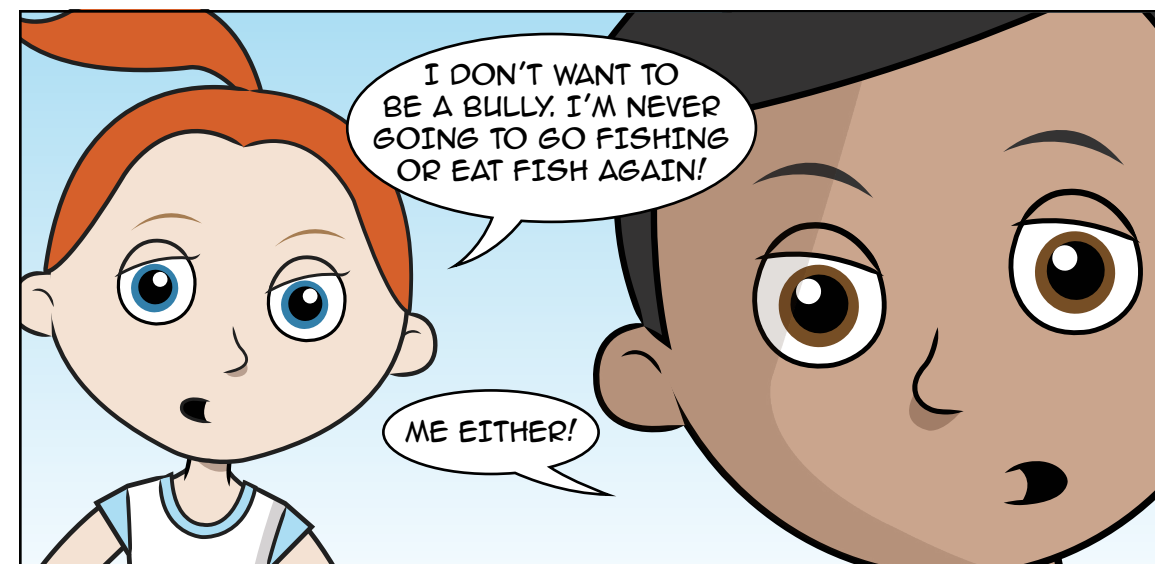

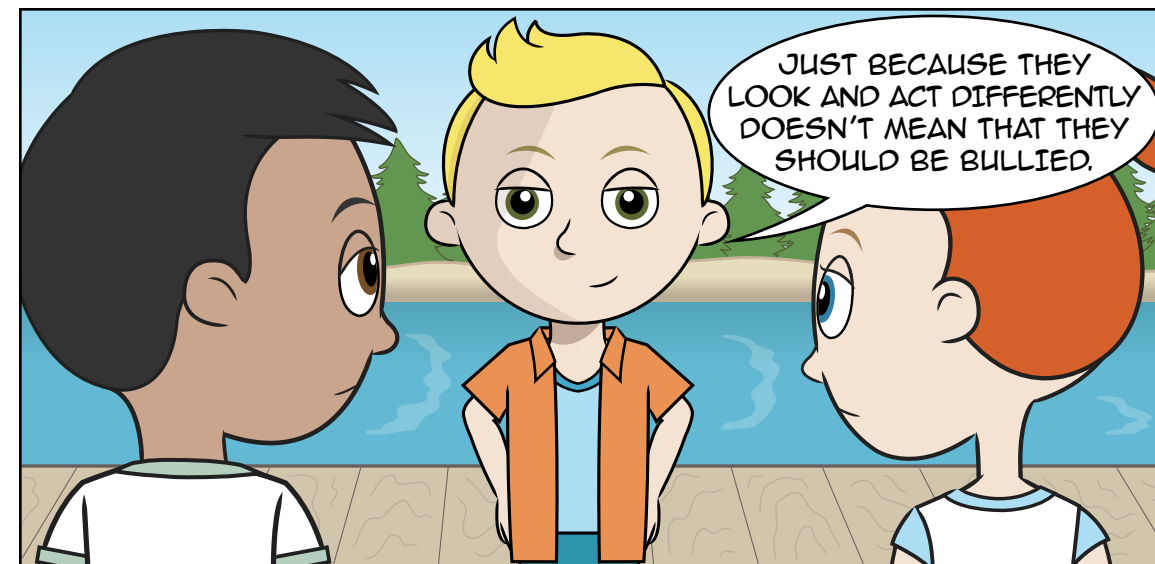

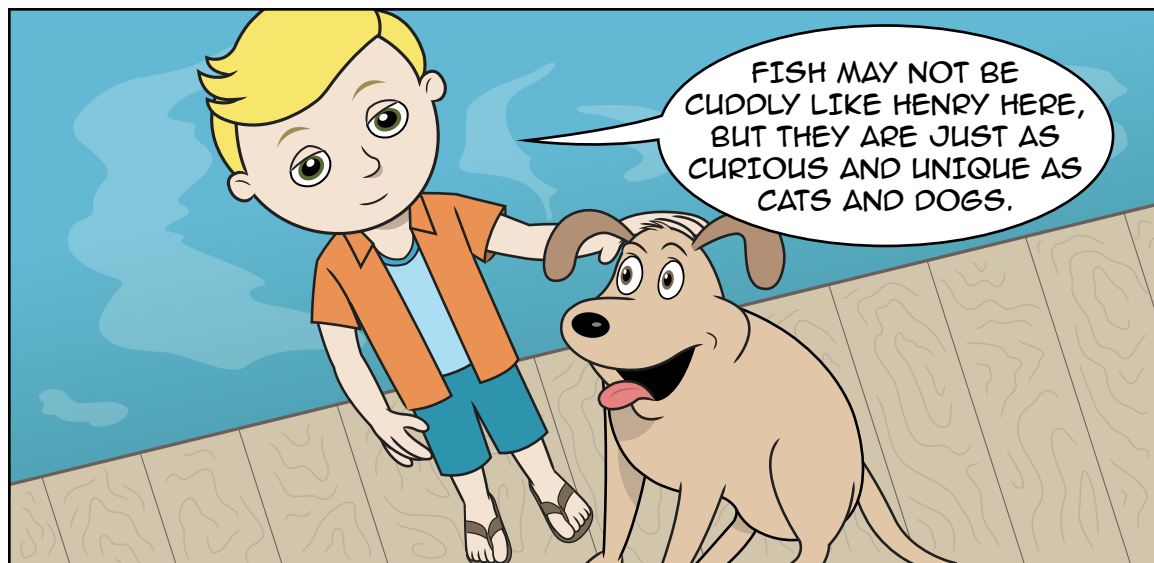

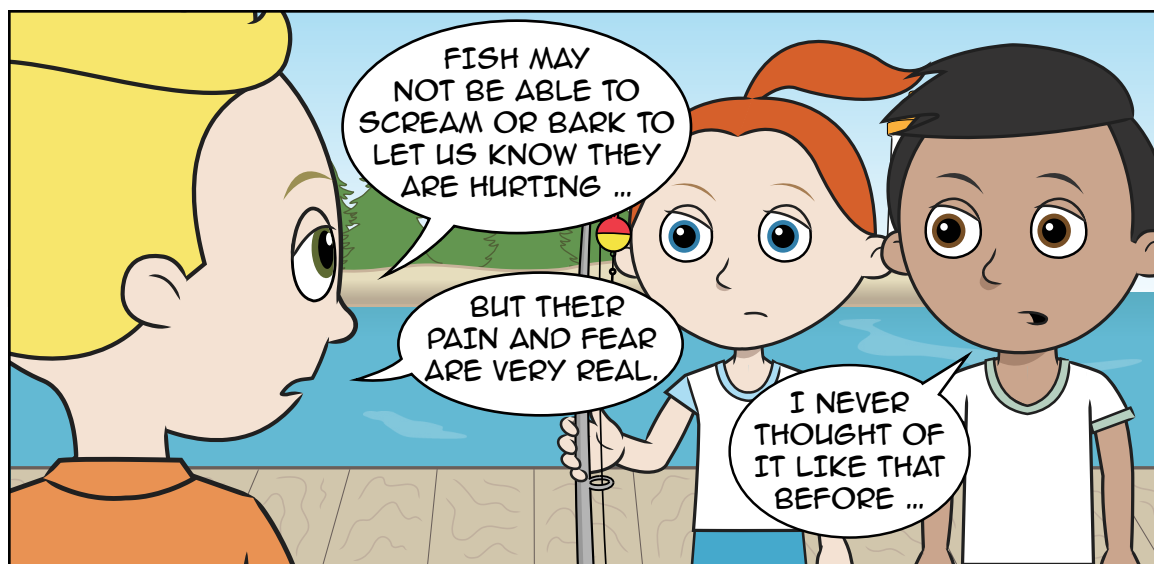

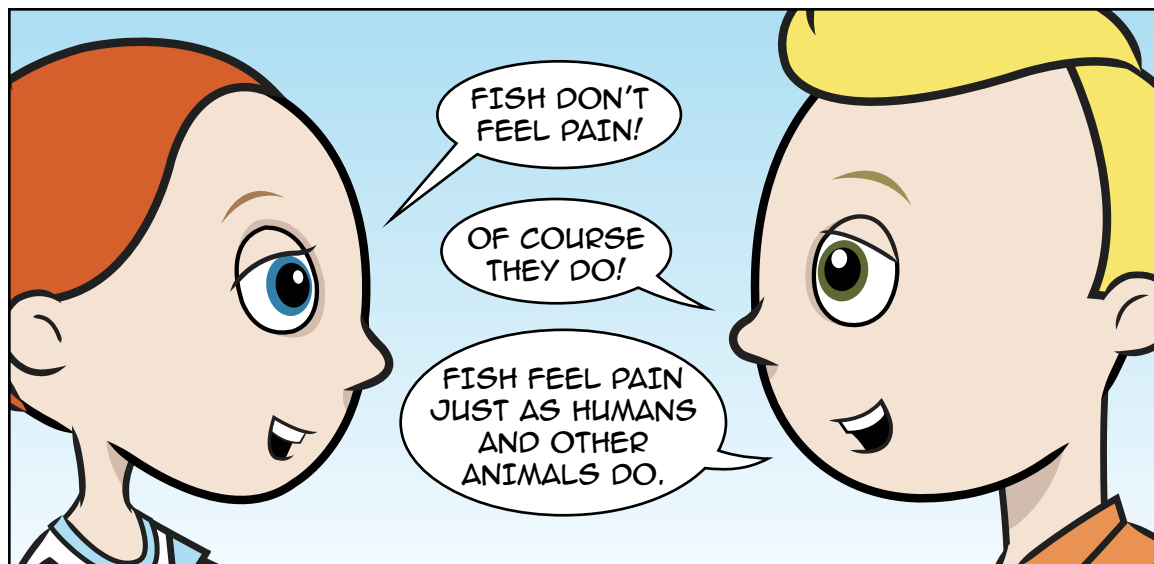

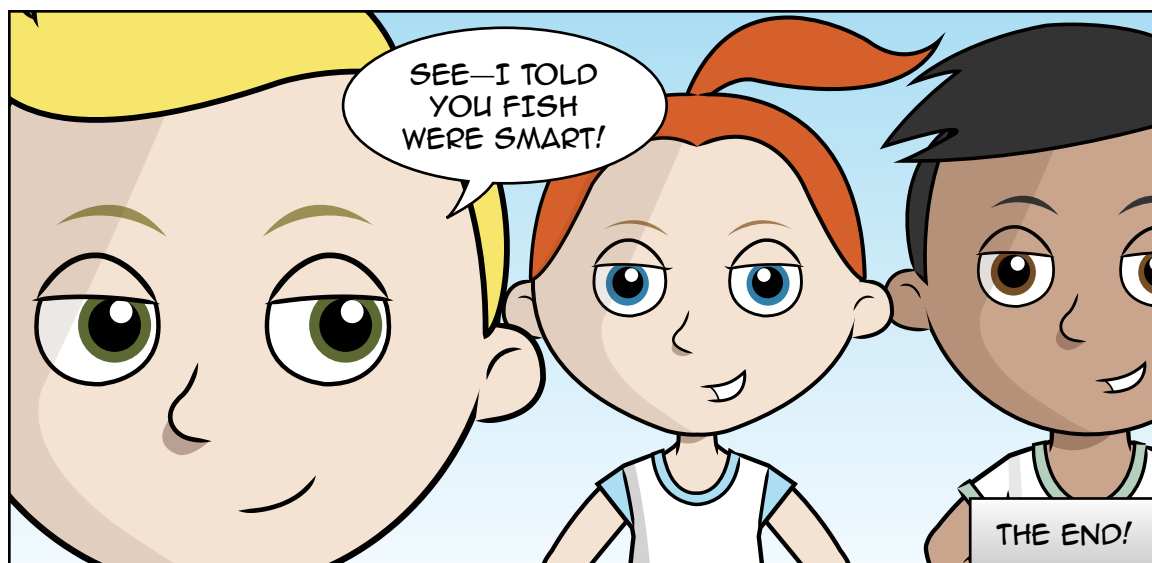

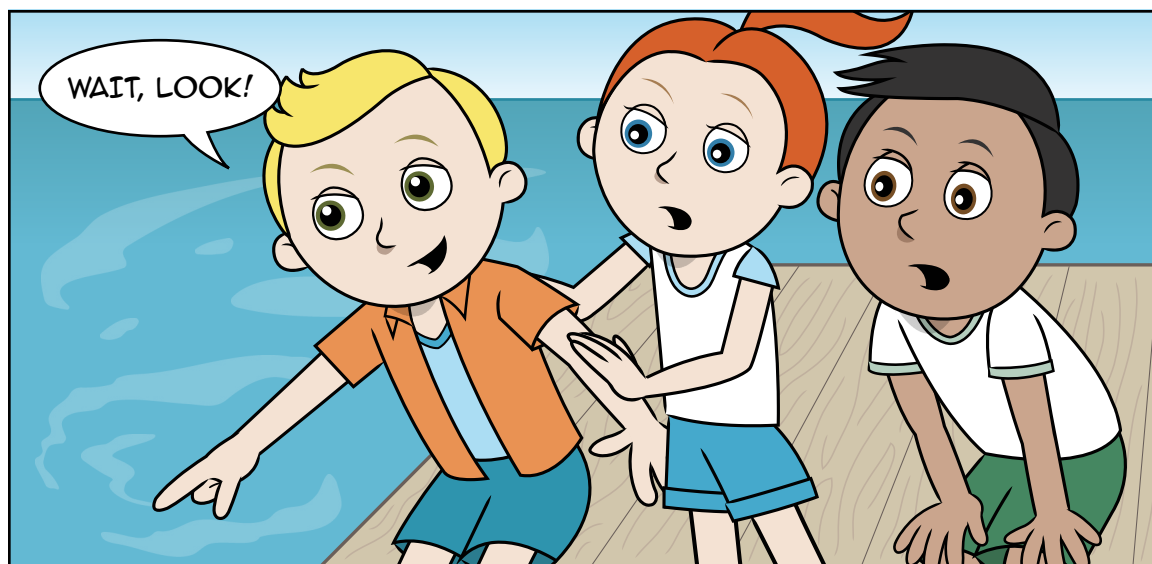

MANY DIE STRUGGLING TO GET FREE OR DIE ON DECK.

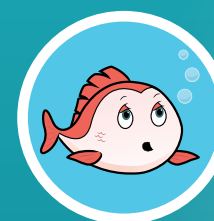

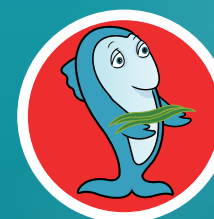

? DID YOU KNOW?

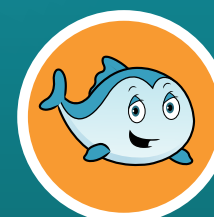

Fish talk to each other using squeaks and squeals. They even listen in on others to gather information!

Using their mouths like we use our hands, fish collect food, make nests for their babies, and gather rocks to build hiding places.

Some fish like to garden! These gardeners with gills allow tasty types of algae to grow while weeding out the types they don't like to eat.

Fish are smart, interesting animals who make friends with their "school-mates," enjoy spending time with their families, and don't want to be hurt any more than you do.
